INTRODUCTION.

THE Tanjore Mahārāja Serfoji's Sarasvatī Mahāl Library, which is described by Dr. Burnell "to be perhaps the largest and most important in the world" and which Dr. Bühler says "contains a great many useful and a number of very rare or nearly unique books many of which are quite unknown or procurable only with great trouble and expense" was till recently the private property of the Rājas of Tanjore.

The earliest beginnings of the Library must have been about the end of the 16th century when Tanjore was under the rule of Telugu Nāyaks who collected Sanskrit Manuscripts written in Telugu character. In the 18th century the Mahrāṭhas conquered the country and since that date the Library has been increasing. By far the greater portion of the collection was made by Serfoji during a visit to Benares during 1820—1830. Śivāji his successor added a few. There has practically been no addition of any value till very recent times. A good number of Sanskrit Manuscripts including rare and valuable manuscripts representing the collection of generations of a family of scholars, known as the "Jambunātha Bhaṭ Lāṇḍagai Collection" was added to the Library in 1921.

Regarding the origin and importance of this collection, Dr. Hultzch has the following interesting information in "No. III. Reports on Sanskrit Manuscripts in Southern India", edited by him in 1905 at Madras :—

"The manuscripts described in this Report belong to Jambunātha bhaṭṭa, a Mahrāṭha Brāhmaṇa at Tanjore, who is the eldest son of a certain Mannambhaṭṭa. He is a no mean Sanskrit Scholar and knows the whole Ṛgveda by heart. As he is continually teaching the text of this sacred book to students, even his blind daughter has learnt to recite portions of it. The existence of his Library was brought to my notice by Mr. T. S. Kuppuswāmi Śāstrī, of the Educational Department, who is favourably known to Sanskritists by his paper on Rāmabhadra Dīkṣita. During my absence on furlough in Europe, my First Assistant, Mr. V. Veṅkayya, M.A., was deputed to Tanjore in order to catalogue Jambunātha's collection. He spent three months at this work, in which he received the valuable aid of Mr. Kuppuswāmi Śāstrī. Both the list and the extracts testify to the thoroughness and care with which he has accomplished his task." From his *Annual Report* on Epigraphy for 1898—99 I quote the following details about Jambunātha's collection :—

"He is the eldest of the three brothers and is descended from a family whose influence is reported to have been very great when the Mahrāṭha Kingdom of Tanjore was in existence. When manuscripts were obtained for the Palace Library from Benares and other places in Northern India, the ancestors of Jambunātha bhaṭṭa appear to have systematically used their influence to make their collection of Sanskrit works. This accounts for the existence in this collection of a large number of ancient manuscripts evidently copied in Northern India. The texts were transcribed by the members of the family, who appear to have been learned men. This, according to the present owner of this Library, was how this collection came into existence. The manuscripts are all written in Nāgarī characters and on loose sheets of

paper. Having been frequently handled by ignorant and careless men the manuscripts became mixed up, and the owner, who despaired of restoring order among them, made them into bundles and tied them with cloth. About two years ago, Mr. Kuppuswāmi Śāstrī, to whom examination of Sanskrit manuscripts is a labour of love, prepared a tentative list of the contents of these bundles. When I went to Tanjore on the 2nd January, Jambunāthabhaṭṭa showed me about one hundred of these bundles. A cursory inspection of them satisfied me that the Library was an important one, and it should be carefully examined. This meant that not only should these works which were still complete be registered in my list but that an attempt should also be made to put together pieces which, through careless handling, had got out of their places."

In 1922, the Library received other valuable collections of rare interest, known as the "Kagalkar" and the "Patanga Avadhūta" collections. The former is about 150 and the latter, about 100 years old. The collection made by the Kagalkar Family of learned Sanskrit Scholars of Tanjore specially well-versed in Sanskrit Grammar (व्याकरणम्) contains the autograph copies made by some of them of the works composed by themselves and others. Its prominent feature is the collection of works on Sanskrit Grammar. The collection made by Pataṅgāvadhūta whose descendants settled at Tiruvaḍamarudūr in Tanjore District contains a large number of works on Vedānta (वेदान्तः) and Bhakti (भक्तिः). Both these collections comprise several Manuscripts which do not already exist in this Library.

The attention of the Government of India and through it of the Government of Madras was directed in 1868 to the importance of the examination, purchase or transcription of Sanskrit Manus-

cripts in Indian Libraries and the framing of printed lists or catalogues of the same. (Proceedings of the Government of India in the Home Department (Public), No. 4338-48, dated Simla, 3rd November 1868).

In respect of magnitude as well as the range of subjects dealt with, not to speak of the diversity of languages employed, the Tanjore Library is probably second to none among Oriental Libraries in India.

In December of the same year, the Government of Madras asked Mr. Pickford, Professor of Sanskrit, to carry out the instructions of the Government of India. He commenced to catalogue the manuscripts at Tanjore but he fell seriously ill and had to return to Europe in March 1870 and never came back to India. It is not known how much he had done as his unfinished catalogues could not be found. (Letter from the Professor of Sanskrit, Presidency College, Madras, to the Chief Secretary to the Government of Madras, 22nd May 1876, and Letter No. 1560, dated Madras, 7th June 1876, from the Director of Public Instruction Madras, to the Chief Secretary to the Government of Madras).

Thereupon Dr. Burnell, District and Sessions Judge, was appointed in G.O. No. 71, dated 16th March 1871, to catalogue the Sanskrit Library at Tanjore. That learned Scholar devoted a great deal of research and labour to the task and his catalogue which he styled "A classified Index to the Sanskrit Manuscripts in the Palace at Tanjore," was published in three parts between 1878 and 1880 in London. This is now the chief key to the huge Sanskrit collection in this Library. But unfortunately a great many manuscripts, above 4,000, seem to have been omitted and his catalogue cannot be said to be complete.

During the course of his preparation of the catalogue Dr. Burnell wrote to the Chief Secretary to the Government of Madras from Bangalore on 6th August 1873 as follows :—

"It may perhaps be asked if the Library is worth the labour spent on it. I can answer unhesitatingly that it is. It is now a recognised fact that nearly all Sanskrit works of importance exist in different recensions. The Tanjore Library is unrivalled in this respect; it contains several good manuscripts of all the most important ones known as yet, including a few that are new............The Tanjore Library, however, contains additional manuscripts of most of the works which I had discovered elsewhere, and this is a matter of great importance.

I believe that this Library must, sooner or later, escheat to the Government. The preparation of this catalogue will therefore protect property of enormous value. Sanskrit Manuscripts have long been very dear and the cost of making proper transcripts is now very heavy. As far as I can judge, it would not be possible to form a Collection like that at Tanjore at a less cost than £50,000 but many manuscripts are unquestionably unique."

The Tanjore Mahārāja Serfoji's Sarasvatī Mahāl Library is now a public library in the full sense of that term, the Government of Madras through the Treasurer of Charitable Endowments, being responsible for its administration. The collection belonged to the reigning princes of Tanjore—the Mahrāṭha Mahārājas. When the last of them died leaving no direct male heir and after the death of the last surviving Rāṇi this collection together with the other properties formed the subject of litigation in civil courts. There was a rumour a few years ago that the collection had attracted the attention of some wealthy patrons of learning from Overseas.

And it would appear that arrangements were very nearly ready to sell the whole collection outright at an assessed value, when public attention was focussed on certain remarks of Dr. Burnell to the effect that "it would not be possible to form a collection like that at Tanjore at a less cost than £ 50,000". The parties concerned had perforce to wake up and the deal was not immediately concluded. The public of Tanjore also began to interest themselves in the affair adequately. It was rightly considered as a question of National pride. The parties in O. S. No. 26 of 1912 on the file of the Subordinate Judge of Tanjore agreed that it was eminently fit that the Library should be preserved and maintained as a Public Library in trust for the public and removed the Library and one lakh of rupees to provide for its upkeep, from the subject-matter of the suit. The Government of Madras in G. O. No. 1306 Home (Education), dated 5th October 1918, accordingly took poossession of the same under the Charitable Endowments Act and have framed a scheme for the management of the same.

Since the Library became a Public Trust there has been a marked improvement in the reception accorded to it by the public. Various liberal and generous-minded benefactors have come forward with magnanimous offers. The Library has been enriched with several very fine collections of manuscripts, every one of them rare, valuable and very interesting. The Kagalkar collection, Jambunātha Bhaṭ Lāṇḍagai collection and the Pataṅga Avadhūta collection—all these three alone number 2181 manuscripts. Besides these, the Tyāgarāja Svāmī collection which alone contains more than 1000 manuscripts; then the minor collections—the Subrahmaṇya Śāstrī collection, Subrahmaṇya Rao collection, Rāmacandra Gaṇapat collection, Nīlakaṇṭha Śāstrī collection—all are of great and paramount importance.

The manuscripts are either on palm leaf or on paper. They are of very different value and come from very different sources. Many of these are recent Nāgarī copies of Manuscripts in South Indian characters and are at least a century old.

These manuscripts are in more than eleven distinct alphabets being from all parts of India. On the whole, one may easily say that the total number of manuscripts now in this Library is likely to exceed 30,000.

A large number of original records belonging to the last reigning house of Tanjore which will be of very great importance for reconstructing the political and social history of the Mahrāṭha rule in Southern India has recently been transferred to the care of this Library from the Civil Court by order of the Judge.

Besides these manuscripts there are also a number of books and Manuscripts in almost all the Indian and European languages and on almost all branches of human knowledge. Special mention may here be made of the books and manuscripts in Telugu, Tamil, Mahrāṭhi and English on account of their number and importance.

Dr. Burnell issued what he modestly styled "A classified Index to the Sanskrit Manuscripts in the Palace at Tanjore," between 1878 and 1880. Between 1880 and 1918, for very nearly forty years, the Library has been the victim of many an outrage. Those who were in possession gave out on loan very many manuscripts which were never returned. And many more somehow or other, found themselves into Libraries other than at Tanjore. Dr. Burnell's catalogue is very useful to us to trace out lost manuscripts which are never likely to come back to us. Our losses are probably far more: for even Dr. Burnell's admirable catalogue was

by no means a complete catalogue of all that existed. For, where he mentions a single work in a bundle, we are able to-day to trace two or more works in the same bundle.

The Committee appointed by the Government of Madras took charge early in 1919. Since then, they have been busily pushing forward the work of revising and preparing a fresh catalogue of all the works now in the Library according to the latest scientific methods. Each work is described in detail in a card-index-form which contains all the necessary particulars.

In 1920 a Catalogue of printed books in French, Latin, Italian and Greek was published. In 1926 three volumes of a Catalogue of Tamil Manuscripts in the Library were published. These are now on sale and can be had from the Secretary of the Library.

The Administrative Committee of the Library approached the Government of Madras, year after year with the request for a special grant to enable them to prepare and publish a descriptive catalogue of the Sanskrit Manuscripts in this Library. In their G. O. No. Mis. 563 Dated 9th April 1927, the Government of Madras were pleased to allot the necessary funds for a three-year programme for carrying out the long delayed desire of the Committee. The work of cataloguing and printing has since been pushed forward with great rapidity.

The First Volume of the Descriptive Catalogue of Sanskrit Manuscripts, containing notices of 697 (Nos. 1-697) manuscripts belonging to the Veda section has already been published. The Second Volume of the Descriptive Catalogue of Sanskrit Manuscripts is now published and this contains notices of 729 (Nos 698-1426) manuscripts belonging to the Veda Section. The Veda section

is expected to comprise in all about 2000 Manuscripts and will be completed in three Volumes. The third and last Volume will contain a detailed introduction to all the Manuscripts contained in the Veda Section besides the various indexes and other useful information.

In issuing this Catalogue, I have great pleasure in acknowledging gratefully the loyal and ever-ready assistance I have been uniformly getting from Rao Saheb. T. Sambamurthi Rao avl. B.A. B.L. the energetic Honorary Secretary of the Library and the permanent staff working under him, on whom and on the special staff sanctioned by Government have fallen all the arduous and exacting work connected with the rapid preparation of the work for the Press.

Subject: White Yajur Veda Brāhmaṇa,—Śatapatha Brāhmaṇa. This Ms. is composed of the following sections:

(1) राजसूयकाण्डम् ॥

(2) उखासंभरणकाण्डम् ॥

(3) हस्तिघटकाण्डम् ॥

(4) चितिकाण्डम् ॥

(10) Fragments.

Remarks :—The Ms. is in a fairly good condition, the leaves being worn-out here and there. The Ms. is unaccented. This Ms. is full of scriptorial errors.

Regarding this Ms. Dr. Burnell has given the following on Page 9 in his catalogue :

"This Ms. contains part of the Kāṇva text of the Śatapatha Brāhmaṇa, which differs much from that published by Dr. Weber. Except at the beginning and end, the text is in very fair order. But few Brāhmans in South India follow the White Yajurveda, and these are all originally from North India, though some families have been settled near Madras and Madura for several centuries. The old enmity between the followers of the two texts of the Yajurveda has given rise to a curious fiction, namely, that the followers of the White Yajurveda cease to be Brāhmans for a certain period at noon every day. This has no doubt arisen from the name Mādhyandina which is that of the most common Śākhā of this Veda. This fiction has reduced the followers of the White Yajurveda so low that other Brāhmans will not associate with them. See Prof. Weber's remarks on this Brāhmaṇa ("Ind. Literaturgeschichte," p. p. 129. ffg)."

A transcribed copy of the Ms. in paper is also available in the Library. See Transcript Volumes 32 and 32 a, the date of copying being Śaka 1834 or 1913 A. D. in the year Pramādī. [Ref. T. V. 32 & 32 a (No. 13)].

This Ms. is quite different from the Printed Volume in its contents and arrangement. To show clearly their difference this Upaniṣad is here divided into six sections and separate beginnings and ends are given for each section. The first section in this Ms. completely coincides with the first five Brāhmaṇas of this Upaniṣad in the Printed Volume. The second section constitutes the sixth and eighth Brāhmaṇas in the Printed Volume. The third section is composed of—(1) the Rudrākṣajābālopaniṣad up to the verse "रुद्राक्षमूलं तद्ब्रह्म"; (2) the very end of the sixth Brāhmaṇa of this Upaniṣad (already noted above) beginning with 'बालो युवा वा०'; (3) the very end of the Rudrākṣajābālopaniṣad beginning with 'य इमामुपनिषदं०' The fourth section of this Ms. is composed of: (1) the portion between अथ कालाग्निरुद्रं० and 'य इमामुपनिषदं' of the Rudrākṣajābālopaniṣad which has slight resemblance with the latter part of the seventh Brāhmaṇa of this Upaniṣad in the Printed Volume; and (2) five verses from the Kaivalyopaniṣad beginning with 'विविक्तदेशे च सुखासनस्थः' ॥ The fifth section of this Ms. is the former part of the seventh Brāhmaṇa of this Upaniṣad in the Printed Volume with slight variations in readings. The sixth section is identical with the 'Bhasmajābālopaniṣad' in the Printed Volume.

An extract of the Phalaśruti from Atharva Śira Upaniṣad and Atharvaśikhopaniṣad is given after the colophon in this Ms. The Ms. is in good condition. It is dated Śaka 1791 or 1869 A. D. in the year Śukla. The Ms. is said to have been copied by Kamalākara, son of Rāma, at Koṅkaṇeśvarasvāmi Temple (in Tanjore).

Subject: Paippalādopaniṣad or Śarabhopaniṣad according to the Muktikopaniṣad and to the Printed Volume.

Remarks: Dr. Burnell had given in his catalogue the name Paippalādopaniṣad to this Upaniṣad as found in the colophon. According to the Muktikopaniṣad this Upaniṣad is named Śarabhopaniṣad. Hence 'Śarabhopanisad' is given as the title of this 'Upaniṣad.' The name 'Paippalādopaniṣad' to this Upaniṣad might have sprung from two sources: (1) that this Upaniṣad might have belonged to the Paippalāda Recension of the Atharva Veda and (2) that this Upaniṣad deals with the main dialogue between Paippalāda and Brahmā, the former questioning the latter about the relative superiority of the Trimūrtis— Brahman, Viṣṇu and Rudra.

The Ms. is old and is in good condition. The readings of this Ms. are slightly different from those in Nos. 1401 & 1402 and in the Printed Volume.
